Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Did you know market prices follow reoccurring patterns? This book focuses exclusively on the art of Charting , a technique of immense importance within the financial industry. It is based on one fundamental assumption: market prices follow predetermined and reoccurring patterns which can be identified using statistics, technical analysis and market indices. Once recognized, these charts provide a good indication of a coin s short-term behaviour. Without a doubt, tracking chart patterns is the most reliable technique to profit from the cryptocurrency markets. Many traders (including myself) have built entire careers around this art; I hope you will come to appreciate its powers very soon. Throughout this book I will present the charting patterns most relevant to the beginner/intermediate-level trader. I will show you how to identify and recognize each pattern while trading, covering its unique features and behaviours. Once you have recognized a pattern in the making, you must know exactly how to react (and quickly!). You are not gambling - every trade must be carefully planned in advance and executed without deviating from the plan. To help you in this aspect, I will show you. What Market Indices to Track How to Recognize Common Chart Patterns Profitable Buy Strategies (i.e. when to enter a market position) Stop-Loss Placement (i.e. how to cut your losses) Profitable Sell Strategies (i.e. when to exit a market position).
