

Signal Transduction in Plant Growth and Development

Filesize: 7.3 MB

Reviews

A really great pdf with lucid and perfect information. It is rally fascinating throgh reading through time. I am effortlessly can get a pleasure of reading a published book. (Reyes Lind)

SIGNAL TRANSDUCTION IN PLANT GROWTH AND DEVELOPMENT

Book Condition: New. Publisher/Verlag: Springer, Wien | Plant growth and development is controlled by various environmental cues that are sensed by the plant via various signal transduction pathways coupled to specific response. Some of these pathways are conserved from yeast to plants being regulated by various kinases and phosphatases. In addition, plants have many unique pathways that transduce to specific signals such as light, phytohormones and oligosaccharides. This volume highlights some of the examples of the plant signal transduction machinery opening new vistas in research on plant growth and development. The new technologies including the use of bacteria, yeast and Arabidopsis as functional complementation systems are providing proof of function of many of the proteins that show homology to those from other organisms. These studies will eventually lead to improvement of crop plants and use of plants as a new resource for producing desirable products to meet the growing needs of mankind. | Signal Transducing Proteins in Plants: an Overview.- I. Introduction.- II. Signal Transduction Paradigm.- III. Conserved Signaling Proteins in Plants.- IV. Novel Plant Signaling Mechanisms.- V. Conclusions and Future Challenges.- VI. References.- G-Protein Regulation of Plant K+ Channels.- I. Introduction.- II. G-Protein Regulation of Animal Ion Channels: Background and Methodology.- III. G-Protein Regulation of Plant Ion Channels.- IV. Future Prospects.- V. References.- Metabolite Sensing and Regulatory Points of Carbon and Nitrogen Metabolic Pathways and Partitioning in Plants.- I. Introduction.- II. Global Regulatory Systems of Metabolic Pathways in Prokaryotes and Lower Eukaryotes.- III. Regulation of Carbon and Nitrogen Metabolism in Higher Plants.- IV. Future Prospects: Challenges for Metabolic Engineering of Crop Plants.- V. References.- Regulation of C/N Interactions in Higher Plants.- IV. Conclusions.- V. References.- Phosphorylation and the Cytoskeleton.- I....
