iUniverse, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Jon Smith keeps a diary of stories concerning the hotly debated Legislation 75, which mandates death for all people by lethal injection on their seventy-fifth birthdays. The topic hits close to home when Jon receives his first invitation to a going-away party from his new friend Bennie. Following Bennie s state-mandated death, Jon walks daily with his dog and regularly encounters Bennie, who is in another dimension. Bennie reveals to Jon that he had participated in the government s covert Fountain of Youth Project, which has shown that certain manipulations of body chemistry and cellular structure slow the human aging process to a crawl. Public exposure of the project is forbidden due to the financial impact it would have on the pharmaceutical industry, but Jon is compelled to find a way to bring the Fountain of Youth Project to the public eye. This thought-provoking novel examines the implications of government-dictated termination and the many physical, emotional, and spiritual considerations of a mandated end to life-however vibrant-at age seventy-five. It explores how we age, what truly constitutes quality of life, and where people find meaning and purpose.
