By Bahman Fakhraie Phd

Ferdats Publishing, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.ABSTRACT This book is an original work about, Market Systems Organizations of Capitalism. A holistic study in Teconomics of Market Organizations and Capitalism requires details of microeconomic components of functional economics systems for policy realignments of economic forces to balance and grow, while resolving macroeconomics issues and imbalances that magnify with data aggregations. That is the microeconomic rigorous mathematical test of optimality, Shepard lemma, and Dr. Bahman Fakhraie additional Sustainability lemmas are reconfirmed at the macro aggregations of data. In the cases, those none-equilibrium game theory balances are applied at micro level, macro aggregate data will show imbalances in the longer run. This study is about some current models, or failed models that have extended outside their relative capacities for well-endued beneficiaries, which have skillfully replaced check and balance and transparencies well organized democracies with tautology of self-interests for mega-international investment banking. Foundational construction will be lasting when it is on good structure, when scientific verifiable and falsifiable tests will assure theoretical soundness, and a secondary evaluation at the aggregate level will show sustainability of balances. The models are tested, which will...
