Why Jacob Christoph Le Blon and Jacques-Fabien Gautier thought the color-printing process was appropriate for anatomy is unclear. But when Gautier set out to commercialize color printing after Le Blon s death, he decided to exploit the market for books on anatomy and natural history. Over the next thirty years, Gautier would draw, engrave, and print in color a series of books which were as radically original and dramatic in their huge sizes and artistic compositions as they were original in their manner of production. Gautier s books contained some explanatory text which we didn t reproduce in this collection. For the medical and scientific value of those texts were poor and didn t bring anything of significance since the previous printing of books with black and white plates such as De Humani Corporis Fabrica by Andreas Vesalius (Basel, 1543 and 1555) and, at about the same time, Tabulae sceleti et musculorum corporis humani (London, 1749) by Bernhard Siegfried Albinus. The scientific explanations of Gautier d Agoty s books were overwhelmed by the power of the images, and in turn, whatever science might have been shown in the images was overwhelmed by the drama of the color and the composition. Why Gauthier d Agoty introduced his readers to anatomy in a so strange manner, so casually, as if his skinless women were attempting to charm the observer regardless of an excruciating but seemingly absent pain anyone is obviously compelled to think about. Because this clear intention of Gauthier d Agoty to introduce striking effect on the mind extended to repeated realistic close-ups on female and male genitalia, sometimes cut or tortured, sometimes awfully damaged by some venereal diseases whose...
