Common Courage Press. Paperback / softback. Book Condition: new. BRAND NEW, Do Not Resuscitate: Why the Health Insurance Industry Is Dying, and How We Must Replace It, John Geyman, "Geyman's literary voice arises from his unusual professional and political trajectories: from country doctor to academic department chair and prominent journal editor, and from longtime Republican to president of Physicians for a National Health Program . . . a passionate advocate and scholar."--The New England Journal of Medicine "The raging debate over how to pay for health insurance has missed a profoundly important fact: As big as it is, as tight of a grip it has on American life, the health insurance industry is dying," states John Geyman, MD, in Do Not Resuscitate: Why the Health Insurance Industry is Dying, and How We Must Replace It. Written for lay readers, health care professionals, and policymakers alike, Do Not Resuscitate moves beyond books that decry our current problems to reveal what the trend for more than half a century of increasing costs and decreasing coverage really means. The situation for doctors, patients, caregivers, and even the insured will move from dysfunctional to a complete breakdown over the next decade. In one of many examples Geyman cites, as employers cut costs in a global economy, the cost of health insurance as a proportion of wages is rising to the point where it will consume all average household income by 2025. John Geyman is professor emeritus of family medicine at the University of Washington School of Medicine in Seattle, Washington. He is the author of The Corrosion of Medicine: Can the Profession Reclaim its Moral Legacy?, Falling Through the Safety Net: Americans Without Health Insurance, and Shredding the Social Contract: The Privatization of Medicare.
