# ASTROPHYSICS OF NEUTRON STARS

Springer. Paperback. Condition: New. 322 pages. Dimensions: 8.9in. x 5.9in. x 0.7in. Here the reader will find a description of the current state of experimental and theoretical investigations of neutron stars in all their manifestations: radio pulsars, X-ray pulsars, X-ray bursters, transient X-ray sources, and so on. The approach adopted stresses the idea that the astrophysical properties of a neutron star are determined mainly by its interaction with its surroundings, that is, the interaction of the intense intrinsic magnetic field of...
