HarperCollins Publishers Inc, United States, 2008. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Did mushroom tea kick-start ancient Greek philosophy? Was Alice s Adventures in Wonderland a thinly veiled psychedelic mushroom odyssey? Is Santa Claus really a magic mushroom in disguise? The world of the magic mushroom is a place where shamans and hippies rub shoulders with psychiatrists, poets, and international bankers. Since its rediscovery only fifty years ago, this hallucinogenic fungus, once shunned in the West as the most pernicious of poisons, has inspired a plethora of folktales and urban legends. In this timely and definitive study, Andy Letcher chronicles the history of the magic mushroom--from its use by the Aztecs of Central America and the tribes of Siberia through to the present day--stripping away the myths and taking a critical and humorous look at the drug s more recent manifestations. Informative, lively, and impeccably researched, Shroom is a unique and engaging exploration of this most extraordinary of psychedelics.
