Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Combo: A General-Purpose Program for Searching, Annotating, Encoding-Decoding, and Reformatting Data Files It is our view that many application programmers and systems analysts views on program efficiency are unduly colored by early experience with primitive compilers and computer systems. As computers have become faster and as core have grown larger and cheaper, over-all man machine efficiency considerations often outweigh consideration of Optimum machine use. While these classical concerns are still important for long repetitive computer runs or for processing large files, they are really not important for a large fraction of the day to day Operations on a modern computer. Moreover, we have found that, for nonnumerical applications, on the whole, a special-purpose program written to solve a specific problem will be no simpler than a general-purpose program capable Of solving it and many other related although not identical problems. General-purpose programming is greatly facilitated by the use of subroutines of modular design. This resembles the construction Of a house from prefabricated parts. Just as certain kinds of wall or flooring components are common to buildings of very different design, certain...
