Oxford University Press, United Kingdom, 2017. Paperback. Condition: New. 5th Revised edition. Language: English . Brand New Book. An impressive line-up of international contributors provides a comprehensive and accessible introduction to politics in the developing world. The first four parts explore the theoretical approaches, the changing nature and role of the state, and the major policy issues that confront all developing countries. The final parts set out a diverse range of country case studies, representing all the main geographical regions. These country case studies illustrate the themes introduced in the thematic chapters and highlight the developing world as a place of diversity and rapid transformations. Readers are provided with the tools to appreciate the perspectives of developing countries. The fifth edition has been thoroughly updated to address topical issues and themes, including refugee movements; the rise of the so-called Islamic State; organised crime; gender; the role of new forms of communication in political mobilization; and the replacement of Millennium Development Goals by Sustainable Development Goals. Two new country case studies have been added: Syria and the Sudan. The text is supported by an Online Resource Centre with the following student resources: Additional country case studies to encourage students to consider the political situations in different developing countries A flashcard glossary to allow students to test their knowledge of important concepts Study questions encourage readers to think critically about each chapter Web links encourage students to go beyond the textbook and read more widely.
