Forgotten Books, United States, 2017. Paperback. Condition: New. annotated edition. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Memoirs of the Department of Agriculture in India: No. 1. Hydrophilidae of India (Col.), A List of the Species in the Collection of the Agricultural Research Institute at Pusa (Bihar); No. 2. An Annotated List of Ichneumonidae in the Pusa Collection; No. 3. A Second Note on Odonata in the Pusa Collection Museum. All females have a flattened and smooth elevation towards the middle of elytral disc near the suture, and the sutural region is longitudinally sulcate on the apical declivity. Viewed laterally, the elytral surface also appears to be obsolete quadricostate. The description of *S. Gibbus* (type one unique male) applies to the males examined these are uniformly convex, without elevations or costae. The females belong rather to *S. Bimodal-its*, Champion p. The latter name was proposed for a unique female from the Sunderbans. Judging from the material examined - types having not been accessible - I believe that the two names *gibbus* and *binodulus* apply to the two sexes of the same species. The first name has priority. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
