Brand New Book ***** Print on Demand *****.A Practical, What-You-Need-to-Know Guide to Getting on Echolink Echolink is a powerful system for linking the worlds of amateur radio and the Internet. You can link your PC, Android, iPhone, iPad or handheld radio to repeaters, individuals, or conferences located anywhere in the world, quickly and easily. And because it s all digital, you get crystal clear, digital sound. If you are a licensed Amateur Radio operator (ham), now you can communicate with other hams directly over the Internet, using streaming audio technology. Complex interfacing isn t necessary to get started with Echolink. All you need is either a Windows PC with a microphone or an Apple iOS or Android device (iPads, iPods, Nexus, iPhone, Samsung, etc.). Yes, all you need to start is an app on your smartphone, there are no other costs involved. This short book gives you a practical, step-by-step walkthrough of all the options to set up your Echolink Station. From registering your call sign with Echolink to installing the software on your PC, Android, or Apple device and making your first calls to...
