Oxford University Press Inc, United States, 2012. Paperback. Condition: New. New.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Direct practice foundation courses in social work prepare students for every step of the problem-solving process, yet too often emphasize the what and the why of practice at the expense of the how. This practical, easy-to-use, and hands-on guide bridges this gap by illustrating the helping skills that practitioners can actually use to influence people s lives in positive ways. Integrating two major helping models-motivational interviewing and solution-focused therapy-it equips students with the techniques and skills necessary for activating client strengths throughout the problem-solving process. Helping Skills for Social Work Direct Practice presents a wealth of sample dialogue, exercises, tips, and do s and don ts, all designed to encourage learning by doing. This workbook helps make the links between theory and practice with these unique features: - Chapters logically organized by phases of the problem-solving process - Case demonstrations involving a variety of roles, including case manager, crisis intervention counselor, medical social worker, and school social worker - Practice exercises that prompt students to apply and generalize skills to different practice settings and client problems - Exhibits and reflection questions facilitate integration between classroom learning and the internship experience - An online instructor s manual ( with detailed answers to discussion questions From the first meeting with clients, to assessment, goal-setting, evaluation, and the ethics that guide the process throughout, this is the nuts-and-bolts guide to helping clients using a strengths-based perspective.
