MODEL NOTES OF LESSONS: FOR CLASS TEACHING (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Model Notes of Lessons: For Class Teaching This is a book for Pupil Teachers and for Students in Training Colleges. It covers the whole ground of ordinary elementary instruction - Reading, Writing, and Arithmetic; Object Lessons; History and Geography; Grammar and Analysis. Of the specific subjects it includes the two most commonly taken - English Literature and Domestic Economy. Chapters on Morals and on Scripture have been added, in order to adapt the book to all classes of schools. The book differs from others on the same subject in being at once a manual of method and a collection of models. The latter will be found to be characterized by great variety, both in subject and in system of arrangement. In a recent Government Examination Paper the following directions on this subject are given: - N.B. - Make them real notes of a lesson, not a string of names, but well arranged particulars clearly explained, in the order most likely to interest children and help them to remember. Do not lose time in speaking of the apparatus needed, c., c., but get at once into the lesson itself. The three aims here specified - arranging the matter, interesting the class, and aiding the memory - have been kept prominently in view in compiling the following pages; and they are offered to Teachers with confidence, in the belief that they will be found really helpful in one of the most important and most difficult parts of school work.
