## Hydrographic surveying Methods, tables and forms of notes

By Samuel Hill Lea

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 Excerpt: . . . depth, indicating the channel lines, and the sub-aqueous contours, correspond to contour curves on ordinary topographic maps, and are drawn in a similar manner. In the case of sub-aqueous contours it is customary to indicate different depths by characteristic lines, a special form of line being used to designate each depth shown. The forms commonly used in drawing lines of equal depth are as follows: For the shallowest contour: . . . --For the contour next in depth: . . . . For the contour next in depth: . . . . . and so on for successive contours. In addition to such details as have been described, the direction of the current is shown by an arrow and the directions of true and magnetic north are shown by suitable symbols. In many cases it is considered advisable to show the positions of survey stations and...
