Heavenly Harmony of Mind and Action, of impression and expression, is the poetry of movement and of life. It includes principles that should animate life itself and all forms of education, mental, physical, and artistic. It produces character, spirit, soul, a something even higher than mind. It embraces the simple love of beauty for its own sake, the ideal upon which the vigour Of the ancient Greek mind and body depended, as Opposed to the material love of gain and might, which led to the downfall of the powerful Roman Empire. It develops national character by producing spirit by thought and right by thought in action as Opposed to the creation of intellectual superiority by educational cram, and might by empirical physical training. Thought in action makes individuals intellectual units, whereas empiricism turns individuals into machines. Thought in action is the one and only of getting that harmony of mind and body that is indispensable for artistic movement.
