Springer-Verlag Gmbh Aug 2010, 2010. Taschenbuch. Book Condition: Neu. 0x0x cm. Neuware - This volume is conceived as a rami cation of the eighth conference on Logic and the Foundations of the Theory of Games and Decisions (LOFT8), which took place in Amsterdam, in July 2008. In all, 61 papers were submitted to this event, of which 48 were presented. This volume is based on a selection of the presented papers and the invited talks: they survived a thorough and lengthy reviewing process. The LOFT conferences have been a regular biannual event since 1994. The first conference was hosted by the Centre International de Recherches Mathématiques in Marseille (France), the next four took place at the International Centre for Economic Research in Turin (Italy), the sixth conference was hosted by the Graduate School of Management in Leipzig (Germany), the seventh took place at the University of Liverpool (UK) and LOFT8 was organized at the ILLC in 1 Amsterdam. The LOFT conferences are interdisciplinary events that bring together - searchers from a variety of fields: computer science, economics, game theory, linguistics, logic, multi-agent systems, psychology, philosophy, social choice and statistics. Its focus is on the general issue of rationality and agency. In the last decade, there has been a flourishing activity in exactly the kind of areas that LOFT aims to address, which is demonstrated by not only the number of submissions to LOFT8, but also the fact that the conference is becoming more and more a home for a large group of researchers, rather than a host for passersby from different disciplines. 207 pp. Englisch.
