THIRD INTERNATIONAL WORKSHOP ON FPGAS FOR SOFTWARE PROGRAMMERS (FSP 2016), CD-ROM

Condition: New. Publisher/Verlag: VDE-Verlag | August 29, 2016, Lausanne, Switzerland co-located with International Conference on Field Programmable Logic and Applications (FPL) | The aim of this workshop is to make FPGA and reconfigurable technology accessible to software programmers. Despite their frequently proven power and performance benefits, designing for FPGAs is mostly an engineering discipline carried out by highly trained specialists. With recent progress in high-level synthesis, a first important step towards bringing FPGA technology to potentially millions of software developers...

Reviews

An incredibly great ebook with lucid and perfect reasons. It is really basic but excitement within the fifty percent of your book. Its been designed in an extremely simple way and is particularly simply after i finished reading this book by which actually changed me, affect the way in my opinion.

-- **Dr. Fiona Grimes PhD**

Very useful to all of group of people. I actually have read through and so i am certain that i will planning to study yet again once again down the road. I am just very easily can get a satisfaction of looking at a created book.

-- **Mark Bernier**

This pdf will never be straightforward to start on studying but extremely entertaining to see. It really is rally fascinating throgh reading through time period. Its been designed in a remarkably easy way in fact it is just soon after i finished reading this book through which basically changed me, modify the way in my opinion.
