Reviews

This book is definitely worth purchasing. Indeed, it is actually perform, continue to an interesting and amazing literature. You may like how the blogger compose this publication.

(Gust Mayert V)

HEART EDUCATION

Paperback. Book Condition: New. Not Signed; Capitalize on teens' fascination with technology! Heart Education: Strategies, Lessons, Science, and Technology for Cardiovascular Fitness uses heart monitoring technology to help students learn concepts of cardiovascular fitness in a fun and innovative way. With the benefits of immediate and constant feedback, heart rate monitoring technology provides an engaging way for students to monitor their exercise sessions. Heart Education is based on the author's principles of Heart Zones Education, a comprehensive cardiovascular fitness program for physical education that examines wellness from the viewpoints of health, fitness, and athletic performance. Designed for students ages 11 to 18, Heart Education incorporates key aspects of the middle school and high school texts of Healthy Hearts in the Zone with the most current information on training and technology. Heart Education's 10-step program provides a series of modules with lesson plans, making it simple to present and easy to learn. The program gets students using heart monitors from the start, letting them experience the rush of seeing their heart rate display. Students will learn functions of heart monitoring, how to apply them based on individual heart rate data, and how to set realistic physical activity goals. Teachers and students can choose from over 20 health and fitness workouts and apply strategies for athletic performance training using heart zones. Heart Education also tackles emotional fitness with structured plans to reduce stress, build positive connections with others, and contribute to a stable emotional outlook throughout the turbulent adolescent years. Also featured are lessons incorporating heart zones concepts into popular outdoor recreation activities such as adventure racing, cross-country skiing, snowshoeing, geocaching, and orienteering. This guidebook features - a lesson plan finder for easy reference to each lesson and its accompanying student materials; - a web resource containing all worksheets, station cards, training...
