

## Egypt and Babylonia

By Fred Benham

Createspace, United States, 2015. Paperback. Book Condition: New. 198 x 129 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Egypt and Babylonia is book two in a series of nine books covering the history of math and science. The series is intended to bridge the gap between the too general and the too detailed. It is intended for the general audience but also it contains sufficient information so that it can be used as a top level textbook. Numerous illustrations are presented to help guide the reader through each topic. The names Babylonia and Mesopotamia are both used in this book to address the geographical area between and surrounding the Tigris and Euphrates Rivers, this area corresponds to modern Iraq, Syria, and eastern Turkey. In order to accurately present certain ideas, some algebraic formulas are presented where appropriate (a short algebra refresher is contained in the appendix), however, the material should be of general interest even if the mathematics is bypassed. Also, since math and science were developed over the centuries, the information is provided within the context of an historical timeline. This book covers the civilizations of Egypt and Babylonia from 3300 BC to 500 BC....
