

Electronic Facilities Engineering - Mil-Hdbk-1012/1: Mil-Hdbk-1012/1 (Paperback)

By Department of Defense

Createspace Independent Publishing Platform, 1989. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.If you like this book (or the Kindle version), please leave positive review. This military handbook presents design criteria for Category Codes 131 and 132, communication facilities, antennas, and transmission lines. The contents cover general engineering requirements, as well as specific requirements for the major types of electronic facilities, including automatic data processing centers and transportables. The design criteria are intended for use by experienced architects and engineers. Includes a list of applicable NIST, UFC, and DHS cybersecurity publications for consideration. Why buy a book you can download for free? First you gotta find a good clean (legible) copy and make sure it s the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it s just 10 pages, no problem, but if it s a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at...
