iUniverse, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.We teeter on the edge of an historical economic abyss. News stories bring reports of job losses, foreclosures, and shriveling investments. So many can t make ends meet, fear losing their jobs, and are confounded by our economy s flux. The country s frustration is palatable. So, what do you do? If you ve asked this question, this book will change how you look at our economy and your livelihood. In simple, straightforward language, author Robert Beadles gives guidance on what to do to secure your financial future. Beadles presents a handful of powerful, and yes, often radical economic ideas. His plans, though, are rooted in a convincing historical context. In plain English, he explains how to convert your shrinking, low-interest investments into solid, no fail assets - gold, silver, and real-estate. Set against the larger context of the Fed he explains why and how these vehicles endure inflation and bad economic policies. The power of this book is in its brevity: Beadle s short answers are backed by viable, alternate strategies that you can easily understand. Yet his small words have big meanings. So if you re confused about what do to, buy this book. What you do thereafter is entirely up to you.
