With Solving for Why you ll learn how to: - identify a struggling math learner; - develop theories for why a learner may be struggling; - facilitate a Concrete -- Representational -- Abstract (CRA) Assessment; - implement an insightful Collaborative Study; - conduct powerful student interviews; - support learners who struggle with memory challenges, attention deficit disorder, and affective difficulties (math anxiety); - differentiate instruction through a main lesson -- menu lesson plan; and more. Each chapter includes reproducible templates for ease in carrying out the assessments. A final section offers resources for supporting students who struggle with additive reasoning, multiplicative reasoning, fractions, and proportional reasoning.
