Andrew Johnson, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The truth about what happened to the World Trade Centre on 11 September 2001 was discovered by Dr Judy Wood, through careful research between 2001 and 2008. The author of this book, Andrew Johnson, had a good view of how later parts of Dr Wood s research came together. Not only that, he was also involved in activities, correspondence and research which illustrated that this truth was being deliberately covered up. This book is a companion and follow-up volume to 9/11 Finding The Truth - and documents ongoing (and successful) efforts to keep the truth out of the reach of most of the population. Evidence in this book, gathered over a period of 12 years, shows that the cover up is micro-managed, internationally and even globally. The book names people who are involved in the cover up. It illustrates how they often stick to talking points and seem to have certain patterns of behaviour. It attempts to illustrate how difficult it is to prevent the truth from being marginalised, attacked and muddled up. Additionally, other evidence pertaining to the events of 9/11 is studied in an attempt to show the vast implications of what is now known. The book aims to open the reader s mind to the power of the group or groups that perpetrated this enormous deception. At the same time, it is shown that the secrets revealed contain the knowledge for positively transforming the world we live in. Please consider reviews of this book very carefully. The subject matter will not be popular. Are you ready for the truth.?
