St. Martin's Griffin. Paperback. Condition: New. 400 pages. Dimensions: 8.2in. x 5.5in. x 1.0in. Critically acclaimed author Robert Klaras The Hidden White House leads readers through an unmatched tale of political ambition and technical skill: the Truman administrations controversial rebuilding of the White House. In 1948, President Harry Truman, enjoying a bath on the White Houses second floor, almost plunged through the ceiling of the Blue Room into a tea party for the Daughters of the American Revolution. A handpicked team of the countrys top architects conducted a secret inspection of the troubled mansion and, after discovering it was in imminent danger of collapse, insisted that the First Family be evicted immediately. What followed would be the most historically significant and politically complex home-improvement job in American history. While the Trumans camped across the street at Blair House, Congress debated whether to bulldoze the White House completely, and the Soviets exploded their first atomic bomb, starting the Cold War. Indefatigable researcher Robert Klara reveals what has, until now, been little understood about this episode: Americas most famous historic home was basically demolished, giving birth to todays White House. Leaving only the mansions facade untouched, workmen gutted everything within, replacing it with a steel frame and a complex labyrinth deep below ground that soon came to include a top-secret nuclear fallout shelter. The story of Trumans rebuilding of the White House is a snapshot of postwar America and its first Cold War leader, undertaking a job that changed the centerpiece of the countrys national heritage. The job was by no means perfect, but it was remarkable and, until now, all but forgotten. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
