

## Why Bad Grades Happen to Good Teachers: Creating Environments Where All Students Learn

By Linda Bress Silbert Ph. D.

Strong Learning Publications. Paperback. Book Condition: New. Paperback. 230 pages. Dimensions: 8.5in. x 5.5in. x 0.6in. There's no doubt. The explosion of new information we are called on to teach is overwhelming. The volume of new technologies available to our students expands daily. That's not going to change. Presenting their system for creating those environments, which they call the STRONG Model (first introduced in their award-winning book for parents, Why Bad Grades Happen to Good Kids, the Silberts reveal the wisdom they've acquired in over 40 years of working with students as teachers, administrators and educational therapists. This is a must-read for teachers and administrators caught in the chaos of trying to conduct school-as-usual in the midst of implementing new performance requirements for both students and teachers--the Common Core State Standards and the InTASC Standards specifically. The Silberts connect the dots between the longstanding mission of educators and those things that teachers need to know and do to demonstrate proficiency with respect to the InTASC standards and evaluation models like the Danielson Framework. And as they say in the book, . . . if we as teachers, parents, administrators and other school personnel stay current with respect to new content and...

### Reviews

*This book is definitely worth acquiring. I have gone through and so I am certain that I will likely read through again in the future. It's been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which it actually altered me, changed the way in my opinion.*

*Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.*
