# CRYSTALLINE ORGANIC ELECTRO-OPTIC MICRORING FILTERS AND MODULATORS

Condition: New. Publisher/Verlag: Südwestdeutscher Verlag für Hochschulschriften | The first active organic crystalline microresonator marks an important step towards the use of organic crystals in integrated photonic devices | Organic materials have been proposed for electro-optic applications because of their high electro-optic coefficients and low dielectric constants resulting in a very small velocity mismatch between the optical wave and the modulation field. The lack of available structuring techniques for organic crystals has been the major drawback for exploring their potential...
