Dorrance Publishing Co., 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The first criterion for accepting a theory as being scientific is that the theory must never contradict empirical facts. Charles Darwin s Theory of Evolution Overthrown was written to prove that Darwin s theory of evolution is not, in fact, a scientific theory at all. Absolutely essential to all science is the agreement between theory and experimental facts. The opinion that man evolved from molecules contradicts archeological evidence on the origin of the human race. Discover for yourself what problems - even problems in today s society - can be traced back to the promotion of Darwin s theory. About the Author Dr. Nyonbeor A. Boley Sr. is a Harvard trained physician and global clinical research scholar with additional degrees from the Johns Hopkins University (MS Bioscience Regulatory Affairs/Clinical Development of Drugs and Biologics) and MGH Institute of Health Professions (MS Clinical Investigation). He has served as clinical research coordinator at Massachusetts General Hospital in Boston. He has also served as health officer at the Boston VA Medical Center, as adjunct instructor of Anatomy and Physiology at Quincy College in Massachusetts, and as academic counselor at Johns Hopkins University in Baltimore, Maryland. Currently, he serves as principal investigator of special projects with the National Institute of Health (NIH). Dr. Boley lives in Roseville, Minnesota, with his wife and three children and enjoys African football and reading.
