Global Competition: Law, Markets, and Globalization (Paperback)

By David Gerber

Oxford University Press, United Kingdom, 2012. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Global competition now shapes economies and societies in ways unimaginable only a few years ago, and competition (or antitrust) law is a key component of the legal framework for global competition. These laws are intended to protect competition from distortion and restraint, and on the national level they reflect the relationships between markets, their participants, and those affected by them. The current legal framework for the global economy is provided, however, by national laws and institutions. This means that those few governments that have sufficient power to apply their laws to conduct outside their own territory provide the norms of global competition. This has long meant that the US (and, more recently, the EU) structure global competition, but China and other countries are increasingly using their economic and political leverage to apply their own competition laws to global markets. The result is increasing uncertainty, costs, and conflicts that burden global economic development. This book examines competition law on the global level and reveals its often complex and little-understood dynamics. It focuses on the interactions between national and international legal regimes that are central...
