DISSERTATION.COM, United States, 2003. Paperback. Condition: New. Language: French . Brand New Book ***** Print on Demand *****.The thesis examines the Catholic social teaching, as it is expressed in papal encyclicals, in wide context of contemporary political doctrines and major events of 20th century. The author proposes a method of following political messages of the Catholic Church during the last century. He challenges a standard Church s claim of immutability of its teaching. He shows, on the contrary, firm contextualisation both of Church s action and of its official message. From classical confrontational strategy face to modernity, through the attitude of dialogue during the Second Vatican Council, the Church insists on remaining a recognized participant of significant contemporary debates even in conditions of postmodernity.
