By P a Duncan

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Mai Fisher s tenure as head of the United Nations Intelligence Directorate has gone smoother than she expected. She s weathered the usual world crises, minor personnel issues, and typical long hours away from home. Nothing to discourage her from continuing in a job she thought she couldn t handle. As the U.S. presidential election winds down, Mai is caught off-guard when the FBI releases information known only to a few in The Directorate. This blatant attempt by someone in her inner circle to rig an election is a betrayal not only of The Directorate s highest ideals but also a breach of its protocols. The Directorate no longer executes traitors in its ranks; only revealing The Directorate s existence carries that sanction. Mai decides this violation instead meets the standard for extraordinary rendition and solitary confinement for life. Someone in The Directorate doesn t agree.

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

This publication is great. It is full of wisdom and knowledge. You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).
