By Ascent - Center For Technical Knowledge

ASCENT, Center for Technical Knowledge. Paperback. Condition: New. 586 pages. Dimensions: 9.2in. x 7.5in. x 1.3in. Building Information Modeling (BIM) is an approach to the entire building life cycle. Autodesk Revit for Architecture, MEP, and Structure is a powerful BIM program that supports the ability to coordinate, update, and share design data with team members throughout the design construction and management phases of a buildings life. A key component in managing the BIM process is to establish a company foundation for different types of projects by creating standard templates and custom family elements. Having this in place makes the process of any new project flow smoothly and efficiently. The objective of the Autodesk Revit 2018 BIM Management: Template and Family Creation learning guide is to enable users who have worked with the software to expand their knowledge in setting up office standards with templates that include annotation styles, preset views, sheets, and schedules, as well as creating custom system, in-place, and component families. This learning guide contains practices that are specific to each discipline. Topics Covered Create custom templates with annotation styles, title blocks, and custom element types. Create schedules, including material takeoff schedules with formula. Create custom wall, roof, and...
