Bibliogov, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Smithsonian is the world s largest museum complex and research organization, with 18 museums and galleries, 10 science centers, and a zoological park. The age of the structures, past inattention to maintenance needs, and high visitation have left its facilities in need of revitalization and repair. Currently, the Smithsonian estimates \$2.3 billion in costs for revitalization, construction, and maintenance projects between 2005 and 2013. This report addresses (1) how the current condition of the Smithsonian s facilities has affected access to the collections, and the collections themselves; (2) what changes the Smithsonian has made to its organization, practices, and prioritization processes to improve its facilities management; and (3) the estimated costs and status of the Smithsonian s facilities projects and their funding sources.
