ADVANCES IN AGRONOMY: VOLUME 51 (HARDBACK)

Elsevier Science Publishing Co Inc, United States, 1994. Hardback. Condition: New. Language: English . Brand New Book. Volume 51 is a compilation of cutting-edge reviews written by leading crop and soil scientists. Several chapters emphasize ecology and the environment: conservation tillage with emphasis on ecological approaches to soil management, especially its effects on the environment, soil physical and chemical properties, and surface mulch, nutrient, and pest management; a complete and contemporary review on integrated pest management, ecological and environmental considerations,...

Reviews

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Mariano Spinka**

Simply no words and phrases to spell out. It can be written in straightforward words and phrases rather than confusing. Your way of life period will likely be converted the instant you complete looking at this ebook.

-- **Mrs. Leilani Abbott II**

The book is simple to go through better to understand. It usually will not cost an excessive amount of. You will not feel monotony at any time of your own time (that's what catalogues are for concerning in the event you ask me).
