By United States Agriculture

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Agriculture, Rural Development, and Related Agencies Appropriations for Fiscal Year 1997, Vol. 2 The Water Quality Program consists of three sub-programs: demonstration sites, hydrologic unit areas and research. The objectives of the first two sub-programs are to: a) advise and assist in the implementation of known agrichemical management and agricultural production systems that enhance water quality; b) induce the adoption of appropriate water quality enhancement or protection systems at significant levels in problem areas. The objective of the research sub-program is to: a) improve and expand knowledge of technologies and agricultural practices for protecting water quality; b) integrate such technologies and practices into production management systems that are economically and environmentally sound. It is for the research program that we have requested this opportunity to testify. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
