

Higher Mathematics (general higher education under the Eleventh Five-year national planning materials)

By NAN JING LI GONG DA XUE YING YONG SHU XUE XI

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 414 Publisher: Higher Education Pub. Date :2008-04-01 version 2. This book points on the two volumes published. the book mainly includes functions. limits. continuity of functions. function of one variable differential and palm its application. function of one variable calculus and its applications; the next volume of the main contents include vector algebra and analytic geometry of space. multi-function differential calculus and its applications. re-integration and its applications. the curve integral and surface integral. infinite series. ordinary differential equations . End of the book is accompanied by mathematical experiments. several commonly used around the curve and the common surface of the three-dimensional graphics. points table. exercises the answers. This book aims to learn the basics of mathematics and mathematical thinking to strengthen the quality of the training integration. focusing on geometric visual representation of mathematical concepts. illustrations. structured. thorough reasoning. easy to understand. The book selected examples. exercises wide coverage. with strong representation. This book can serve as the professional institutions of higher undergraduate science and engineering materials. engineering and technical personnel are also available for study...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who statte there had not been a well worth reading through. I discovered this ebook from my dad and i encouraged this book to find out.

-- Lacy Goldner
