Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.There is something very special about a neighborhood coffee shop. It is a place that can fortify us for what the day will bring. It can be a sanctuary, a home away from home. Often it is a place to meet-up, conference. For some of us it is also a place to observe, enjoy and speculate on all this diverse and interesting interaction. Join my adventure by making this book your own. Not only am I not opposed to you turning this book over to a child or the kid in you, I would find it endearing that these drawings would inspire you to play with adding color. My paintings and even my writing, often start with the black and white of a sketch. In case you haven't heard, adult coloring books are becoming quite a passion. Perhaps our ever-complicated world and its demands on our attention are fueling this trend. I think that we all wish that we had more time for reading. For many, perhaps a little coloring can still feed a passion for getting into a book and more easily allow the satisfaction of finishing something. Why settle for a computer created coloring book when you can add life to images created as a celebration of human richness? Families could find this book as a source for good conversation. How we all interact with each other is not only interesting, discussing this could be educational. Not only is this book designed to be fun as a coloring book, it is also laid out in a journal format. By leaving you a blank page with each drawing, the idea is you can add your own thoughts, ideas and images....
