Brand New Book ***** Print on Demand *****.Excerpt from Self Instruction in Navigation to Which Is Added, Some Useful Miscellaneous Information Including Illustrative Cuts on Rules of the Road The writer of this book has endeavored to eliminate higher mathematics from the navigational work and use plain English instead of formulae that prove so confusing to the man who has not been educated along these lines; to such a one Bowditch might as well be written in Greek. The skilled navigators are requested not to criticise this work for it is not written for them, but for the ones who are struggling to inform themselves although meeting with indifferent success and much discouragement. It would seem that any such men might take up the study of navigation by means of this book, and if Chapters 1 6 are carefully followed, and studied, the results are bound to be good. Let those who think they can t get ahead because they haven t been as well educated as might be, take courage and start a systematic study of these pages beginning with the Day s Work. Don t worry over the formulae in Art. 1 (a and b) for they will be found to work in all right when needed. Chapter V is a practical illustration of how these various problems ought to be applied in practice on an ocean steamer and it is believed will prove helpful. The mastery of the problems in this book may kindle a desire to go deeper which Bowditch can satisfy at any time; but for practical navigation it is not necessary, for there is enough here to take a ship anywhere in the world.
