AUTHORHOUSE, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Today the majority concur that general non-fiction is best served up in the narrative, story, form. Movies is such. Movies is unique in that everything in the book centers around, The Story, priority. The author celebrates, commemorates, lauds the Movie Kingdom of Hollywood, especially the Hollywood at the end of the thirties and into the fifties. Moves have impacted human kind more than any other technological breakthrough. They have held a mirror up to society, the American world in particular, reflecting it and in so doing influenced our lives. They ve thrown the everyday, the ordinary, great drama, profundities, the ethical/moral issues, the West, War, and their ever devotion to humor in our eyes, opened our ears. This is no expose! This narrative is told by an avid movie goer from the age of six throughout the better part of her lifetime. Movies have been a significant part of her life. They have intruded, taught, amused, given vicarious pleasure. They have offered escape and relaxation like no other. Movies is a thought, factual book. The author tends to over do in the areas of Artistry, The Natural Actor, Love, and a continuous examination, along with a low key pervasive criticism.
