Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Chapin s System of Planet Movement: The Solution of Registered Acceleration, the Moon s Path and Its Registration on the Orbit and the Location of the Centers of Motion of Planets The material purpose Of this work is, by proper drawings, specifications and deductions, forever to settle the question of what the motion Of the earth is round the sun. I have emphatically denied the truth Of Kepler s law Of equal areas and the whole Newtonian system as to one planet having, by positive force, such as gravity, the power to accelerate or retard the motion Of any planet. Being the only individual Of record who has traced the spiral paths Of planets round the moving sun, find that spiral paths cannot be correctly traced, under any law, round the sun, when acceleration on the orbit is made an element. But such paths coincide with the uniform velocity Of the planet on its orbit, and are self evident facts, from the sun s motion in Space, the orbits being cross or diagonal sections Of the spiral paths.
