Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.When my children were bringing home bad grades in math in grade 5, I produced programs for them. My children were performing at the lowest level in math and they were not permitted to be in the same math classroom with their peers. While using my program as contained in this book, my two children quickly progressed from the lowest performing level in grade 5 to regular math class in grade 6, to advance class in grade 7, maintained advanced math class status in grade 8, they successfully completed high school, and today, both are doing pre-medicine at the university. These statements confirm that there are some gifted students among the lowest performing students who are just waiting for the correct opportunity that can ignite their intelligence, motivation, and determination to succeed academically. This book shows students how to develop super brain, how to boost their academic grade, and how to develop academic retention skills. These critical pre-requisites for effective education are not taught in schools, so many innocent students continue to fail in school year-after-year for over fifty years. I use my experience as a Math Coach for teachers and as a senior engineer to produce this book to solve all academic problems facing students of the world. As a former Math Coach for math teachers and a senior engineer, I get my inspiration and joy from the reflections from the eyes of poor, struggling, but determined students, who won't give up. This book is a combination of a true testament of academic success and application of built-in engineering quality controls that are tested and proven to work for all determined and effective...
