Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.As the Obama administration gives way to the Trump administration, a lot of political observers are wondering what factors led to Donald Trump's election. Was it the result of Russian meddling or FBI Director James Comey's last-minute revelations about Hillary's e-mails-or should we blame it on Obama? In this timely book, Dr. Markeith L. Porter compares the political careers of Presidents Obama and Trump. While acknowledging the legitimacy of the Trump electoral victory, the author's personal experiences with the Muslim and LGBTQ communities lead him to question the legitimacy of Trump's positions on crucial issues. Porter points out that both presidents were swept into office on platforms promising change. Then he compares their agendas on domestic topics, including Obamacare and unemployment, and on foreign policy issues, including the North Korean nuclear threat, the Iranian nuclear deal, the civil war in Syria, and NAFTA. In the concluding chapters, Porter addresses the distance between what middle-class Americans are calling out for and what, too often, politicians are offering instead-particularly concerning the social safety net. It seems that heated political debate is going to be in vogue for the near future. The author invites you to read up and be engaged.
