SNOOKER (VIDEO GAME)

Betascript Publishing. Taschenbuch. Condition: Neu. Neuware - Snooker is a 1983 sports simulation video game from Visions Software Factory, which simulated the game of snooker on the major home computers of that epoch, including Commodore 64, Commodore VIC-20, ZX Spectrum, Acorn Electron, and BBC Micro. The players take turns to hit the white cue ball against the reds or colors following the rules of Snooker. The strength of the shot and the spin could be selected using the space bar and cursor keys respectively. The limited color selections of the home computers of the time along with the memory sizes meant the user experience was limited compared to more modern implementations. 76 pp. Englisch.
