

Chemistry: Structure and Properties with Masteringchemistry (Mixed media product)

Filesize: 5.78 MB

Reviews

I actually began looking over this ebook. I could possibly comprehend everything using this published e publication. You wont feel monotony at at any time of your time (that's what catalogues are for regarding if you request me).

(Arnold Nienow)

CHEMISTRY: STRUCTURE AND PROPERTIES WITH MASTERINGCHEMISTRY (MIXED MEDIA PRODUCT)

Pearson Education Limited, United Kingdom, 2015. Mixed media product. Book Condition: New. Global Edition. 267 x 246 mm. Language: N/A. Brand New Book. For two-semester general chemistry courses. This package includes MasteringChemistry(R). Bestselling author Niva Tro has always believed the behavior of matter is determined by the properties of molecules and atoms to be the most important discovery in scientific knowledge. This idea is the entire factor for his seminal new text-Chemistry: Structure and Properties. Dr. Tro emphasizes the relationship between structure and properties, establishes a unique approach to teaching chemistry by presenting atomic and bonding theories early in the text, and stresses key themes throughout. The book is organized to present chemistry as a logical, cohesive story from the microscopic to the macroscopic, so students can fully grasp the theories and framework behind the chemical facts. Every topic has been carefully crafted to convey to students that the relationship between structure and properties is the thread that weaves all of chemistry together. While developed independently of other Tro texts, Chemistry: Structure and Properties incorporates the author s vivid writing style, chemical rigor, dynamic multi-level images, and tested features. His consistent conceptual focus and step-by-step problem-solving framework encourages students to think through processes rather than simply memorize content. Interactive media within MasteringChemistry(R) complements the book s problem-solving approach, thus creating a comprehensive program that enables students to learn both in and out of the classroom. This program presents a better teaching and learning experience-for you and your students. *Developed with a central theme and by a teaching community: As part of a community that teaches with the understanding that matter is composed of particles and the structure of those particles determines the properties of matter, Dr. Tro took great lengths in the text to ensure that everything from organization, art,...
