RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 76 pages. Original publisher: Washington : U. S. G. P. O. : For sale by the U. S. G. P. O. , Supt. of Docs. , Congressional Sales Office, 2001. OCLC Number: (OCoLC)47922938 Subject: Coalbed methane -- Montana. Excerpt: . . . 11 Montana. Although BLMs review is still in the preliminary stage, we believe that number could be considerably higher. Public involvement is another important aspect of our environmental statement, and the public has many opportunities, through this process, to participate. PREPARED STATEMENT We also have the coalbed methane coordination group, consisting of Federal, State, and tribal agencies, landowners, industry and environmental groups. And we intend to keep that in place and use that for our deliberations. This concludes my statement. I would be pleased to answer any questions that members may have. The statement follows: P S M MILLENBACH PREPARED STATEMENT OF AT Mr. Chairman and members of the Subcommittee, I appreciate the opportunity to appear here today to discuss the development of the coalbed methane resources of the Powder River Basin in Montana. COALBED METHANE DEVELOPMENT IN MONTANA As you know, the Powder River Basin contains large coal deposits that have methane gas trapped in the coal seams. Recently, there has been a significant increase in coalbed methane (CBM) production within the Basin - particularly in Wyoming, where over 8, 500 private, state and federal CBM wells have been drilled, and it is estimated that roughly 50 percent of them are now producing. Currently in Montana, there are about 215 producing CBM wells. All of these wells are non-federal wells. With rising natural gas prices, industry is interested in coalbed methane development in southeastern and south central Montana. More than 50 percent of...
