An Introduction to the Logic of Algebra With Illustrative Exercises

By Ellery Williams Davis

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1890 Excerpt: . . . the time when C will happen; then D happened 7 years ago. Let the student give other illustrations. Imagine that after going 2 steps right and then 7 left, I find myself 10 steps to the left of the origin. Where was I I retrace my steps, going from 10 left, 7 steps right, and then 2 left, and I find myself 5 steps left from the origin. Or again, I notice that I have come upon the whole 5 steps left from the starting point, and retracing these, I get as before a point 5 steps left from the origin. In symbols: -10-(2-7) -10-2 7 -5, and--10--(2-7) --10- -(-5) --10 5 --5 an illustration of association and sign-reversal. Of the latter, here are others: less of westing is more of easting; less of spent is more of saved; to lighten ones burdens is to...
