USER-CENTRED DESIGN OF SYSTEMS

Book Condition: New. Publisher/Verlag: Springer, Berlin | There has long been a need for a book which deals specifically with human factors issues and methods, and which is targeted at the computer science and engineering population; this book fills that gap. Using a model, that places the human at the centre of the system design, users are considered in terms of their cognitive and physical attributes and their social needs, and the way in which computer technology needs to be...

Reviews

Just no words and phrases to describe. It is rally exciting throgh studying period of time. You will not sense monotony at anytime of the time (that's what catalogs are for regarding if you check with me).

-- **Joel Lakin**

It in a of the best book. We have study and i also am confident that i will gonna study once more once more in the foreseeable future. I discovered this pdf from my i and dad recommended this book to understand.
