

IPv6 Security (Paperback)

Filesize: 4.76 MB

Reviews

*A whole new eBook with an all new standpoint. It is actually rally fascinating throgh reading through time period. You wont truly feel monotonny at anytime of your own time (that's what catalogues are for relating to when you request me).
(Claire Bartell)*

IPV6 SECURITY (PAPERBACK)

Pearson Education (US), United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. IPv6 Security Protection measures for the next Internet Protocol As the world s networks migrate to the IPv6 protocol, networking professionals need a clearer understanding of the security risks, threats, and challenges this transition presents. In IPv6 Security, two of the world s leading Internet security practitioners review each potential security issue introduced by IPv6 networking and present today s best solutions. IPv6 Security offers guidance for avoiding security problems prior to widespread IPv6 deployment. The book covers every component of today s networks, identifying specific security deficiencies that occur within IPv6 environments and demonstrating how to combat them. The authors describe best practices for identifying and resolving weaknesses as you maintain a dual stack network. Then they describe the security mechanisms you need to implement as you migrate to an IPv6-only network. The authors survey the techniques hackers might use to try to breach your network, such as IPv6 network reconnaissance, address spoofing, traffic interception, denial of service, and tunnel injection. The authors also turn to Cisco (R) products and protection mechanisms. You learn how to use Cisco IOS (R) and ASA firewalls and ACLs to selectively filter IPv6 traffic. You also learn about securing hosts with Cisco Security Agent 6.0 and about securing a network with IOS routers and switches. Multiple examples are explained for Windows, Linux, FreeBSD, and Solaris hosts. The authors offer detailed examples that are consistent with today s best practices and easy to adapt to virtually any IPv6 environment. Scott Hogg, CCIE (R) No. 5133, is Director of Advanced Technology Services at Global Technology Resources, Inc. (GTRI). He is responsible for setting the company s technical direction and helping it create service offerings for emerging technologies such as IPv6....
