SMAUG: UNLEASHING THE DRAGON

[DOWNLOAD](#)

Harper Design. Hardcover. Condition: New. 104 pages. Dimensions: 9.5in. x 7.7in. x 0.5in. Complete with stunning full-color illustrations, film stills, and behind-the-scenes imagery, Smaug is an in-depth look at how Academy Award-winning filmmaker Peter Jackson brought to life J. R. R. Tolkiens fearsome dragon from The Hobbit. The book is a must have for all fans of Middle-earth. Peter Jacksons highly anticipated film, The Hobbit: An Unexpected Journey, hit the silver screen in December 2012, and for the first time audiences around the world caught a glimpse of the terrifying dragon Smaug as he took over the Lonely Mountain. Not until the next installment of the trilogy The Hobbit: The Desolation of Smaug is released in December 2013, will audiences finally get to witness the majesty and terror of this ferocious, fire-breathing dragon. In The Hobbit, Smaug the Golden is described as one of the last great dragons of Middle-earth. He came from the North and laid claim to the great kingdom of the Dwarves of Erebor, taking over their vast riches, including gold, gemstones, mithril, silver, and, most importantly, the Arkenstone, a large gem that became the family heirloom of the Durin dwarf line. Utilizing the most advanced special effects and computer animation and graphics, Jackson and his film team were able to create the dragon Smaug to the grand heights originally envisioned by J. R. R. Tolkien. The result is mind-blowing. This book is dedicated entirely to the dragon Smaug. The first section explores how the dragon was imagined and designed with a special focus on the dragon scenes at the end of the film. The second section, the making of section, shows how Smaug was brought to life by Weta Digital. The book will include pre-visual content, performance capture with actor contributions, as well as concept artwork, photographs and development...
