This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

Excerpt from Non-Christian Religions of the World The progress of Islam was slow until Mahomet cast aside the precepts of toleration, and adopted an aggressive, militant policy. Then it became rapid. The motives which animated the armies of Islam were mixed - material and spiritual. Without the truths contained in the system, success would have been impossible, but neither without the sword would the religion have been planted in Arabia, nor beyond. The alternatives offered to conquered peoples were Islam, the Sword, or Tribute. The drawbacks and attractions of the system are examined. The former were not such as to deter men of the world from embracing the faith. The sexual indulgences sanctioned by it are such as to make Islam the Easy way. The spread of Islam was stayed whenever military success was checked. The Faith was meant for Arabia and not for the world, hence it is constitutionally incapable of change or development The degradation of woman hinders the growth of freedom and civilization under it. Christianity is contrasted in the means used for its propagation, the methods it employed in grappling with and overcoming the evils that it found existing in the world, in the relations it established between the sexes, in its teaching with regard to the respective duties of the civil and spiritual powers, and, above all, in its redeeming character, and then the conclusion come to that Christianity is Divine in its origin.
